

Real Estate Section Preview

The Real Estate Section is busy planning for the program year ahead! Keep an eye out for announcements about two CLEs for late fall; one concerning medical marijuana legislation - with a focus on zoning and leasing issues, and the second covering zoning and development in the City of Boston.

Stay tuned...

As a result of last year's *Mahajan v. Dep't of Env'tl. Prot.* decision concerning Article 97 and a new case that is on schedule before the Supreme Judicial Court, the section is keeping an eye out for developments in the ways to provide record notice of parcels protected under Article 97.

Also in the works...

The Section is planning a Law Student "field trip" to the Suffolk County Registry of Deeds to help familiarize students with the location as well as the Real Estate Section.
